

ABDULLOH SODIQOV

FRONT-END DEVELOPER · REACT / NEXT.JS / TYPESCRIPT

Tashkent, Uzbekistan | +998 95 083 21 27 | dilmurodvccfx@gmail.com
dilmurodvcc.uz | linkedin.com/in/abdulloh-sodiqov | github.com/dilmurodvcc

PROFILE

Front-end developer with over a year of production experience building React and Next.js applications inside a 40+ engineer organization. Takes features from Figma handoff to deployment across admin/CRM panels, B2B portals, and consumer products in e-commerce, travel, and fintech — several now serving 10,000+ users. Works daily in Nx monorepos and micro-frontend codebases, and builds internal AI tooling to shorten the design-to-code loop.

EXPERIENCE

Front-End Developer Jun 2025 – Present
Udevs IT Company · Tashkent, Uzbekistan

- Converted to a full-time role after independently delivering a client's **admin/CRM panel** ahead of a fixed deadline.
- Own front-end delivery across **10+ concurrent client projects**, shipping into shared Nx monorepos with micro-frontend boundaries that keep parallel teams merging cleanly.
- Built the admin dashboard and **WebView onboarding flow** for the Formula mobile app, including native navigation-mode detection bridged from Flutter over a MethodChannel.
- Created a reusable **Next.js project template** (App Router, Redux Toolkit, TanStack Query, i18n) now used to bootstrap new client builds.
- Built an internal **AI agent system on Claude Code** — an orchestrator paired with a front-end agent wired to Figma MCP — that turns designs into production-shaped components.
- Configured **GitLab CI/CD pipelines** for Node.js services on Hetzner, covering build, test, and deploy stages.
- Triaged and fixed release-blocking bugs across booking, payment, filtering, and B2B transaction flows on the Central Tour platform.

SELECTED PROJECTS

WEB

Kansler.uz [kansler.uz](#)
Office-supply e-commerce platform — catalog, cart, and checkout. Team project

Central Tour & CENTBED [B2C + B2B](#)
Tour-booking site and paired agent portal handling reservations, payments, and B2B transactions.

UTAS University Platform [utas.uz](#)
Public university web platform. Team project

MOBILE · APP STORE & PLAY MARKET

Formula · MADPAY · Fotinium · beTrader
Web modules, WebView flows, and admin panels supporting four published applications.

5+ admin panel dashboards · 10+ landing pages

SKILLS

CORE

TypeScript, JavaScript, HTML5, CSS3

FRAMEWORKS

React, Next.js (App Router), Node.js

STATE & DATA

Redux Toolkit, TanStack Query, Zustand, REST, GraphQL, WebSocket

STYLING

Tailwind CSS, SCSS

ARCHITECTURE

Nx monorepos, micro-frontends

TOOLING

Git, GitLab CI/CD, Vitest, Figma, Strapi

MOBILE

Flutter, Dart

AI TOOLING

Claude Code, MCP integrations

EDUCATION

Najot Ta'lim
Front-End Development (React.js)
2024 – 2025

Cambridge Learning Center
English — Beginner to IELTS
2023 – 2025
